

## Scope

The Metal Ring Company manufacture and supply roll formed products, formed into rings or otherwise, and fitted with closure devises or not.

Our primary raw materials are:- Slit Coil, Pressed Components and Fasteners.

Our products comprise combinations of the above raw materials using various forming and joining methods.

The QMS has been created in accordance with BS EN ISO 9001:2015 to support our manufacturing processes from material purchase to final Invoicing. It allows for operational developments to improve interactions with all interested parties

Design work is not undertaken in the Company and therefore is excluded from our QMS.

Measurement traceability is not considered to be an essential part of providing confidence in the validity of measurement results, and is therefore excluded from our QMS.
